SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- MongoDB
- Express.js
- React.js
- Node.js
- JavaScript (ES6+)
- REST APIs
- MySQL
- PostgreSQL
- Supabase / Neon DB
- Version Control (Git)
- Figma / Framer
- HTML / CSS
- Java

LANGUAGES

- English
- Tamil

PROFILE

Dedicated and skilled MERN Stack Developer with hands-on experience building scalable, full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in designing client-server architecture, writing effective REST APIs, and developing mobile-responsive front-ends. Experienced across the complete software development lifecycle (SDLC) – from ideation and architecture design to testing, debugging, and deployment. Adept at creating data protection and security settings, writing technical documentation, and collaborating with cross-functional teams to deliver high-quality SaaS applications. Also skilled in UI/UX with Figma and Framer, enabling end-to-end ownership from design to production.

EDUCATION

Bachelor of Computer Science

2023 - 2027

Muthayammal Engineering College (Autonomous)

CGPA: 8.15

HSC

2022 - 2023

SRV Boys Matric higher secondary school Rasipuram

Percentage: 79%

PROJECTS

EDWYNA

Built a full-stack Event Management Web Application using the MERN Stack, enabling event organizers to create, manage, and monitor events in real time. Designed and implemented both client-server architecture and RESTful APIs for seamless data flow across registrations, attendee tracking, and schedule management. Ensured mobile-responsive UI design and conducted thorough testing and debugging throughout the SDLC to maintain application stability and scalability.

Technologies Used: MongoDB · Express.js · React.js · Node.js · REST APIs

CertifyPro - Secure Certificate & Examination Platform

Developed a scalable, full-stack web platform for secure certificate management, online examinations, and automated email notifications. Implemented steganography-based certificate verification, data protection and security settings, automated result processing, and mobile-responsive exam management. Wrote REST APIs, performed unit testing and debugging, and maintained technical documentation to ensure clean, well-structured code. Integrated Brevo for email automation.

Technologies Used: MongoDB · Express.js · React.js · Node.js · Brevo (Email Automation)

INTERNSHIPS & ACHIEVEMENTS

Currently working as a MERN Stack Developer and UI/UX Designer Intern at **Echo Digital Works**, contributing to user-centered interface design, wireframing, prototyping and responsive web experiences using modern design tools and technologies.

Shortlisted for the final round of **INNOHACK 2026** under the Health Tech & Med Tech track, demonstrating innovative problem-solving, teamwork and user-centered design skills in a competitive hackathon environment.
